DORMA Interior Office Fronts

Office center, non-profit organization
Washington, DC

DORMA Interior Office Fronts are frameless, all-glass systems that create remarkable, glass-dominated workplaces. Sliding and pivoting options with stylish and innovative glass fittings enhance both functional and aesthetic design possibilities.

DORMA Interior provides everything design professionals need to realize the elegant and functional glass fronts they envision: design assistance, turnkey systems that include glass, hardware, and installation, and standard or customized solutions.

A breakthrough in interior glass front design, **DORMA Interior Office Fronts** maximize glass usage while minimizing hardware, contributing to daylighting points toward LEED certification.
