

In Concert with Fire Departments

Concert Architectural Interiors specializes in interior furnishings and architectural specialty solutions for fire department headquarters and fire stations. We provide a holistic package of sustainable concepts that enable the facility to be utilized functionally, comfortably and with longevity. From fire hose racks to turn out lockers, from galleys with inherently anti-microbial and non-porous finishes to living quarters, Concert Architectural Interiors works closely with the owner, architect, designer and contractor to deliver a best in class facility, on time and on budget. Whether the building is up for LEED certification or you simply need to consider sustainability, life cycle costs and environmental impacts, our LEED AP staff is ready to assist.
